

# TEMPRID<sup>®</sup>75

## Does it better.

### Better residual effect.

Provides at least 10 x more residual\* efficacy than competition.

### Better knock-down.

Providing at least 2 x faster knockdown\* than competition.

### Better flexibility.

Can be used indoors and outdoors on a wide variety of pests.

### Better chemistry.

HAS<sup>™</sup> technology.

HAS (Homogenised Active Synergy) combines both actives via a unique milling process which defines precise tolerances to ensure the optimum particle size. This ensures that the two actives work together to maximum effect.

\*Bayer data on file.
